

**Job Summary**

This position performs manual labor tasks in various parts of the public works department.

**Responsibilities and Duties**

Duties include, but are not limited to, snow plowing, culvert installation, cutting grass, road patching, tree trimming, building maintenance and other general labor and mechanical duties.

The position does require some early starting times and longer work hours, i.e., snow plowing and work is often done in extreme cold or heat.

This position will require operating both light and heavy equipment and performing routine, semi-skilled to skilled work in maintenance and road construction.

This position will require periodic drug screening and driver's license review.

**Qualifications and Skills**

A valid Wisconsin driver's license and a CDL is required.

Mechanical repair knowledge is a must.

Salary is based on experience.
